

Temporary Base Plate for Fallen “Schedule 40/Schedule 80” Road Signs

Maintenance, All of CDOT

Challenge

Fallen Schedule 40/80 Posts are often too heavy and dangerous for one person to put back up alone.

Innovation

The Innovators created a Base Plate that can temporarily hold up the Posts. Can be installed by one person.

Parts Used

Two pieces of scrap metal that were welded and bolted together. Optional Wedge (scrap metal).

Benefits

- Improves safety
- Reduces Time & Effort
- Repurpose Extra/Scrap Metal
