

# Improving Safety by Painting Tips of Forklift Tines

All of CDOT

## Challenge

Forklift tines pose a safety hazard to people as they can easily be tripped over if they go unnoticed

## Innovation

Paint the tips of forklift tines with brightly colored yellow or orange paint to reduce the tripping hazard

## Parts Used

- Masking material (ex: painting tape)
- Brightly colored orange or yellow paint

## Benefits

- Improves safety
- Improves internal/external customer experience

A forklift with tines that are painted bright orange
